

THE SHATTERED CROWN

COMPLETE WALKTHROUGH • ALL MAPS • EVERY SECRET

ALL 12 GOLDEN
ACORNS REVEALED
INSIDE!!

4 DUNGEON MAPS • BEASTIARY •
BOSS TACTICS THAT REALLY WORK

— YOUR FOES AWAIT —

THE LEGEND OF ELDORIA

Long, long ago — before the meadow paths were walked, before the first lantern was lit — the land of Eldoria was wild and dark. It was the **Crown of Eldoria**, forged by the first heroes from three sacred jewels, that brought the balance: the **Emerald** of the deep forests, the **Ruby** of the burning sands, and the **Sapphire** of the frozen peaks. While the Crown sat whole upon its pedestal, crops grew tall, monsters kept to the shadows, and kids could chase fireflies long after bedtime.

Then came **Morgrath**.

Once the royal court's cleverest sorcerer, Morgrath grew jealous of a power he could study but never own. One starless night he split the Crown with a single forbidden word, scattering its three shards to temples at the far corners of the realm, each guarded by a monstrous general of his own twisted making. Then he raised the **Dark Citadel** in the Ashen Wastes and sealed himself behind a barrier no blade, bomb, or battering ram can break.

The land dimmed. Slimes oozed into the meadows. Skeletons climbed out of the desert. Wolves of living ice came down from the mountains. And in the little village of **Willow**, the elder Rowan looked at one brave kid — **you** — and saw the only hope Eldoria had left.

TALES OF ELDORIA

*"Three shards, three temples, three generals.
Reunite the shards and the barrier falls. Then it is
you and Morgrath... and may your sword arm be
steady, little one." — Elder Rowan*

Long ago, the CROWN OF ELDORIA
kept our land in balance.

- press ENTER -

YOUR QUEST BEGINS! Press ENTER to read the
prologue.

Your mission, hero:

- Recover the **Emerald Shard** from Vinewood Temple
- Recover the **Ruby Shard** from the Sandstone Ruins
- Recover the **Sapphire Shard** from Glacier Hollow
- Shatter the barrier, storm the **Dark Citadel**
- Defeat **Morgrath** — both of him! — and reforge the Crown

GETTING STARTED

CONTROLS OF A CHAMPION

KEY	WHAT IT DOES
Arrows / WASD	Move your hero
SPACE (or Z)	Swing sword — also talk, read signs, open chests, buy
X	Use equipped item (bow, bombs, lantern, potion)
C (or TAB)	Switch equipped item
ENTER (or ESC)	Pause — inventory, equip and SAVE
M	Mute the music (but why would you?)

PRO TIP

Talking, reading, opening and buying are all on SPACE — when something is in front of you, SPACE interacts instead of swinging. Walk up close and face it!

SAVING YOUR QUEST

Three save slots live on the title screen. The game **auto-saves** every time you enter or leave an area, find a treasure, or defeat a boss — and you can save anytime: press **ENTER**, then **S**. Falling in battle never erases your progress. Continue from your last save and march right back in!

WATCH OUT!

Pressing **E** twice on the title screen ERASES a save slot forever. Guard your slot like you guard your hearts!

READING YOUR HUD

Top of the screen, left to right: your **hearts** (lose them all and it's Game Over), **gems**, **arrows** and **bombs** (once you own their launchers), **potions**, dungeon **keys**, your three **shard slots**, and the item bound to **X** in the far corner box.

FIRST THINGS FIRST

- Visit **Elder Rowan** in the big house — he hands every new hero **30 gems** to get started. Free money!
- Cut **tall grass and bushes** with your sword. Hearts, gems and arrows hide inside. Smash **pots** too — it's not rude, it's adventuring.
- Talk to **everyone twice**. Villagers update their hints as your quest moves forward.

PEOPLE OF ELDORIA

ELDER ROWAN
Willow Village's wise leader. Gives you 30 gems and your marching orders. Report to him after every shard!

MIRA THE SHOPKEEP
Runs the village shop. Potion 40, ten arrows 20, five bombs 25, lantern 60. The lantern is the best 60 gems you will ever spend.

PIP
Willow's resident expert in being seven years old. Surprisingly useful rumors. Mostly jokes.

GUARD TOMAS
Watches the north road. Warns you about the mountain pass — listen to him, then go anyway. You're the hero.

FARMER JOSS
Tends the southern fields. Knows which way the desert lies, and exactly how many crops the slimes have eaten.

FISHER FINN
Lives on the lake's edge. The fairy pond to the northeast? He found it. Ask him about the water.

HERMIT ALDOUS
Lives in a cave in the Frostpeaks (enter at the stairs on the high pass). Knows what the cracked boulder at Glacier Hollow needs. BOOM.

NOMAD ZARA
Camps in the desert. The eye above the ruins' door? She knows what it's waiting for. (It's an arrow. Bring a bow.)

WITCH MORLA
Her hut sits at the swamp's edge. Speaks in riddles about a sunken shrine and a blade that "cuts twice as deep." She is not kidding.

FAIRY ARIA
Guardian of the healing ponds. Step into her waters and every heart refills. Completely free. Visit often!

NUTWICK, THE SQUIRREL KING
Rules a hidden grove in the western forest behind a wall of bushes. Obsessed with Golden Acorns. Pays ROYALLY for them — see the Classified Section, page 15!

TALES OF ELDORIA

Nutwick claims his great-great-grandsquirrel helped forge the Crown by fetching the wood for the bellows. Historians are skeptical. Nutwick is not.

MIRA'S GENERAL STORE — PRICE LIST

WARES	PRICE	OUR VERDICT
Red Potion	40	Buy before EVERY boss. No exceptions.
10 Arrows	20	Cheap. Eye switches don't shoot themselves.
5 Bombs	25	Walls fear you now.
Lantern	60	The best gems you'll ever spend. Period.

PRO TIP

Mira won't sell arrows or bombs until you own the bow or bag — and she won't oversell past your carrying caps. Honest shopkeeping!

POSTER PAGE — TAPE THIS TO YOUR WALL

THE WORLD OF ELDORIA

- 1 Willow Village — start here!
- 2 Vinewood Temple (Dungeon 1)
- 3 Sandstone Ruins (Dungeon 2)
- 4 Glacier Hollow (Dungeon 3)
- 5 The Dark Citadel (Final!)
- 6 Sunken Shrine (secret dungeon)
- 7 Fairy Pond — free full heal
- 8 Oasis Fairy Pond — free heal
- 9 Witch Morla's Hut
- 10 Hermit's Cave
- 11 Nomad Zara's Tent
- 12 Nutwick's Hidden Grove
- 13 The Barrier — 3 shards open it

PRO TIP

The world is 10 screens wide and 8 screens tall. Region borders are sealed by terrain except at the road gateways — if you're walled in, you're missing a path, not a glitch. Follow the dirt roads!

REGION FIELD REPORT

REGION	DANGER	WHAT'S OUT THERE
Meadows	★	Home turf. Slimes, the village, the crossroads, a bombable gem cave.
Forest	★★	Dungeon 1, Nutwick's grove, 3 acorns, two gem chests.
Lake	★★	Fairy pond, the bridge island, a bush hiding a Heart Container cave.
Swamp	★★	Slow wading, the witch's hut, and the Sunken Shrine below the mire.
Desert	★★★	Dungeon 2, the oasis pond, mummies, a Heart Container boulder.
Frostpeaks	★★★	Dungeon 3 (bombs required!), the hermit, ice wolves, HC boulder.
Ashen Wastes	★★★★★	Behind the barrier. Knights, wizards, lava — and the Citadel.

ITEMS & EQUIPMENT

WEAPONS OF LEGEND

WOODEN SWORD

Your trusty starter. 1 damage. Also cuts grass, bushes and pots — Eldoria's economy runs on landscaping.

HERO'S BLADE ★SECRET★

DOUBLE DAMAGE on everything. Sleeps beneath the swamp in the Sunken Shrine (page 16). Get it before the Citadel and thank us later.

HUNTING BOW

Found in Vinewood Temple. Fires arrows with X. Comes loaded with 10. The only thing that can hit an eye switch!

BOMB BAG

Found in the Sandstone Ruins. Drops a bomb with X (comes with 5). Blows up cracked walls and cracked boulders. Stand back!

LANTERN

Buy it from Mira (60 gems) or find one early in the Sandstone Ruins. Lights torches with X and brightens dark rooms. Required for torch puzzles!

POWER BOOTS

Found in Glacier Hollow. Run faster forever — and never slip on ice again. The puzzle-solver's best friend.

SUPPLIES

RED POTION

Press X to refill ALL hearts. Carry up to 4. Buy before every boss. This is the guide's number one commandment.

HEART CONTAINER

Your maximum hearts grow by one! Bosses drop them; three more hide in secret caves; one is buried in the Citadel; Nutwick holds another.

OAK CHARM ★SECRET★

Nutwick's final reward: ALL damage you take is halved. Forever. Worth every acorn.

SMALL KEY

Opens one locked door in the dungeon where you found it. Our maps mark every key so you never waste one.

BIG KEY

Opens the boss door. Guarded accordingly. No big key, no glory.

THE THREE SHARDS

Emerald, Ruby, Sapphire. Each dungeon's boss guards one. Collect all three and the Barrier in the Ashen Wastes dissolves on sight.

PRO TIP

Carrying caps: 999 gems, 30 arrows, 12 bombs, 4 potions. Mira won't sell you what you can't carry — she's honest like that.

BEASTIARY OF ELDORIA

HP = sword hits to defeat (Hero's Blade halves it!). **DMG** = hearts lost on contact.

FIELDS & FORESTS

SLIME

HP 1 • DMG ½ • hops

Eldoria's welcome committee. One bonk. Practice your timing here.

RED SLIME

HP 2 • DMG ½ • hops fast

Spicier cousin. Hops with less downtime — strike between bounces.

BAT

HP 1 • DMG ½ • flies

Weaves over pits and water. Wait for the swoop, then swing.

SPITTER

HP 2 • DMG ½ • shoots seeds

A rude plant. Sidestep its seeds and rush it — it barely moves.

BEETLE

HP 2 • DMG 1 • charges

Flashes, then dashes in a straight line. Step aside like a matador, then poke it while it's dizzy.

SANDS & BONES

SCARAB

HP 2 • DMG 1 • charges fast

The beetle's track-team cousin. Bigger sidestep. Same dizzy poke.

SKELETON

HP 3 • DMG 1 • chases

Relentless walker. Backpedal and slash — your reach beats his bones.

SKELETON ARCHER

HP 2 • DMG ½ • shoots bones

Keeps its distance and plinks at you. Zigzag in, or return fire with your own bow. Drops arrows!

MUMMY

HP 5 • DMG 1 • slow tank

Slow, tough, and patient. Hit-and-run four times — never trade hits. Sometimes drops bombs!

FROZEN PEAKS

ICE SLIME

HP 2 • DMG 1 • hops

A slime that learned winter. Hits harder than its meadow kin.

ICE WOLF

HP 3 • DMG 1 • chases FAST

Fastest chaser in the game. Don't run — turn and meet it with steel.

FROST WISP

HP 2 • DMG ½ • flies + shoots ice

Floaty and annoying. Its shards travel in straight lines. Strafe, close distance, swat.

THE DARK LEGION & THE GENERALS' GUARDS

MORGRATH'S ELITE

DARK KNIGHT

HP 6 • DMG 1 • chases • ARROW-PROOF

Armor shrugs off arrows entirely — you'll hear the clank. Sword and bombs only. Circle behind and chip away.

WIZARD

HP 4 • DMG 1 • teleports • bolts

Blinks near you, fires, blinks away. The moment it appears is your moment — be swinging where it lands.

EYE SENTRY

HP 3 • DMG 0 touch • turret

A stone eye that fires only when you line up with it. Approach diagonally and it never gets a shot. Harmless to touch!

MINIBOSSES — THE GENERALS' GUARDS

BIG SLIME

HP 10 • DMG 1 • Vinewood Temple

A slime the size of a shed, guarding the Bow. Huge hops, huge landing lag. Punish every landing and keep your feet moving.

MUMMY KNIGHT

HP 14 • DMG 1½ • Sandstone Ruins

Hits like a falling pyramid. It telegraphs its dash — bait it, dodge it, then carve while it recovers. Patience wins.

ALPHA WOLF

HP 12 • DMG 1 • Glacier Hollow

Charges across the ice where YOU can't turn — stand near a wall, dodge late, and let it crash. Guards the Power Boots.

BOG LURKER

HP 12 • DMG 1 • Sunken Shrine

Vanishes into the murk and pops up beside you spitting mud. Listen for the splash, swing where it surfaces. Guards the Hero's Blade!

WATCH OUT!

Defeated minibosses stay defeated — but ordinary monsters return every time you re-enter a screen. Great for farming hearts and gems; less great when you're at half a heart. Know when to run!

PRO TIP

Every enemy can drop hearts, gems, arrows or bombs. Tougher enemies drop better loot. A mummy hallway is a bomb shop with extra steps.

FROM VILLAGE TO VINEWOOD

Step one: see Elder Rowan (30 free gems!), read every sign, and mow the village lawns for pocket change. When your courage is topped up, take the west road out of the village square.

Step two: the crossroads. South lie the farms; keep west through the meadows. Slimes and the odd red slime patrol here — perfect sword practice. Work toward the forest border two screens west.

Step three: the forest. Tall trees, winding paths, spitters lobbing seeds from the undergrowth, and bats in the canopy. Head for the **north-west clearing** where stone statues flank a mossy staircase: **Vinewood Temple**.

PRO TIP

Before the temple: stock up! 20 gems buys 10 arrows — useless now (no bow yet), but a **potion (40)** in your pocket turns a scary first dungeon into a comfy one. Short on gems? There's a 20-gem chest behind bushes in the far north-west forest nook, and a 50-gem chest in the south-west woods.

SIDE QUEST: THE SQUIRREL KING

In the forest's western clearing, a suspicious wall of bushes hides a grove. Cut through and meet **NUTWICK, KING OF SQUIRRELS**, who pays out for Golden Acorns at 4, 8 and 12 collected. There's an acorn lying in his own grove. Take it. He won't notice. (He will absolutely notice. He counts them daily. Take it anyway.)

TALES OF ELDORIA

Why are the acorns golden? Morgrath's barrier leaks raw magic on the wind. It lands on ordinary acorns. Nutwick considers this the one good thing the sorcerer ever did.

DUNGEON 1: VINEWOOD TEMPLE

FULL TEMPLE MAP — entry at bottom-center. Boss waits top-center!

1. **Entry hall:** push the stone **block** onto the **floor plate** to open the north door. Your first puzzle — the block slides one tile per shove.
2. **South-west room:** clear every monster and a **Small Key #1** chest appears. Sealed doors with monsters behind them work like this all game: clear the room, claim the prize.
3. **The hub:** note the **eye switch** staring at you. It wants an arrow you don't have yet. East first!
4. **Locked door (key #1) east:** the **BIG SLIME** miniboss guards a golden big chest — the **HUNTING BOW** (with 10 arrows). Dodge the hops, strike the landings.
5. **Supply room** (north of the miniboss): plates + a fight open the way to spare arrows and gems. Stock up.
6. **Back to the hub:** arrow the **eye switch** — the west door grinds open. Small Key #2 lives in the south-west wing.
7. **North-west vault:** the **BIG KEY**. Now the ominous boss door in the hub's north wall will open.

SECRET

The south-east bonus room has a **cracked wall**. You can't open it yet — remember it, and come back after Dungeon 2 with bombs for a 50-gem payday.

BOSS: BRAMBLEHORN

BRAMBLEHORN — 14 HP of angry beetle. Wait for the WALL CRASH!

The temple's general is a beetle the size of a wagon, and your sword **bounces right off its shell**. Here's the trick the temple priests carved into the walls: **it can't steer**. Stand in its line, wait for the telegraph flash, hop aside — and when it slams into the wall, it's stunned and soft for a full three seconds. **That's your window**. Slash, retreat, repeat. Reward: **Heart Container + THE EMERALD SHARD!**

PRO TIP

Take the glowing portal home — and visit Elder Rowan. Everyone in the village has new things to say after each shard!

DUNGEON 2: SANDSTONE RUINS

Getting in: cross the south meadows into the desert and head for the great ruin in the south-east. The door is sealed — but a stone **eye** watches from the facade. You have a bow now. You know what to do.

1. **Entry:** go **WEST** first — a lantern sits in a chest in plain sight. (Already bought one from Mira? The chest pays gems instead.)
2. **East kill room:** clear it for **Key #1**, then light the **two torches** to unseal the north door.
3. **MUMMY KNIGHT** miniboss: bait the dash, punish the recovery. Victory opens the vault — the golden chest holds the **BOMB BAG** (with 5 bombs).
4. **Key #1** unlocks the entry's north door — the hub. Twin eye switches here open a handy shortcut east.
5. **West wing:** push-blocks onto plates plus a torch open the way to the **BIG KEY** vault. **Key #2** is in this wing too, in a spike nook — careful feet!
6. **North wing (dark!):** lantern up. A pit maze guards **Key #3**, and a **cracked wall** here must be bombed to push deeper.

7. **Gauntlet east, then the boss door.** Potion check: got one?

SECRET

FOUR more cracked walls hide bonus caches in this dungeon — west of the entry, in the big-key vault, in the gauntlet, and beside the bomb vault. When in doubt, bomb the suspicious wall. The ruins respect demolition.

BOSS: VESPER THE SAND WYRM

The arena floor churns. The wurm is **untouchable underground** — watch the sand bulge, step away from the rising spot, and dodge the spit. Then it **surfaces for five long seconds: attack!** Sword if you're brave, arrows if you're sensible. Reward: **Heart Container + THE RUBY SHARD!**

WATCH OUT!

Out of bombs mid-dungeon? Mummies drop them, and Mira sells five for 25. Never bomb your last wall without a plan, hero.

DUNGEON 3: GLACIER HOLLOW

Getting in: take the mountain pass north (Tomas will fret — wave cheerfully). On the high snowfield, a **cracked boulder** plugs a cave mouth. One bomb later, Glacier Hollow yawns open.

Ice rules: on blue ice you **slide** — steer gently, plan ahead. Blocks pushed on ice **glide until they hit something**. Every sokoban puzzle here is built on that. (Mess one up? Leave the room and return — blocks reset. The glacier is forgiving. The wolves are not.)

1. **West of entry:** the ice-slide maze. Ride it to **Key #1**.

2. **East of entry:** wolf den (clear-sealed) into the **sokoban on ice** — plates open a pocket holding **Key #2**.
3. **Hub** (locked door #1): a **cracked wall** in the hub itself hides **Key #3**. Bombs again!
4. **West wing:** triple-plate sokoban, then the sentinel vault — clear the eye sentries for the **BIG KEY**. Approach sentries diagonally!
5. **East wing:** the three flames hall (lantern!) leads to the **ALPHA WOLF** arena. Let it crash into walls, then strike. The golden chest holds the **POWER BOOTS** — faster forever, and no more slipping on ice.
6. **North crevasse** (optional): pits, sentries, treasure. Boots help.
7. **Hub north:** the boss door.

BOSS: KARN THE FROST REVENANT

A frozen sorcerer who **blinks around the arena** hurling fans of ice. Halfway down, he calls **frost wisps** to the fight — swat them fast or drown in shards. He's vulnerable whenever he's visible: chase the materialize, land two hits, dodge the barrage, repeat. Reward: **Heart Container + THE SAPPHIRE SHARD!**

DUNGEON MAPS: RUINS & HOLLOW

SANDSTONE RUINS — 11 ROOMS OF TOMB

Entry bottom row, second from left. Lantern chest LEFT of entry — grab it first! Boss arena: top-right. Dark rooms shown lit for your convenience. You're welcome.

GLACIER HOLLOW — 11 ROOMS OF ICE

Entry bottom row, second from left. Ice-slide maze to its LEFT, wolf den + sokoban RIGHT. Boss: top row, second from left. Spot the cracked hub wall hiding Key #3!

PRO TIP

Reading our maps: gold dots = pots (smash!), small chests = keys and gems, GOLD chests = dungeon treasures, dark doorways = doors that need keys, switches and flames. If a wall looks cracked, it is. Bombs fix everything.

THE BARRIER & THE DARK CITADEL

Three shards sing in your pack. East of the mountain pass, the Ashen Wastes begin — dead trees, boiling lava, and Morgrath's shimmering **Barrier**. Walk up to it with all three shards and watch it **dissolve like sugar in rain**. No button needed. You earned this.

THE BARRIER FALLS — the Wastes are open. So is the worst place in the world.

WATCH OUT!

The Wastes are end-game country: dark knights (ARROW-PROOF!), wizards, skeletons. Lava walls burn on touch. There's a 50-gem cache and a 5-bomb cache hidden out here for heroes who explore — see the Classified Section.

The **Dark Citadel** looms in the north-east. Checklist before the gates: **Hero's Blade** (page 16!), **4 potions**, full bombs and arrows, and every Heart Container you can claim. This place is a fortress, a puzzle box and a final exam all at once.

THE DARK CITADEL — entry at bottom-center; Morgrath's throne crowns the top.

THE SAFE ROUTE (4 KEYS, ZERO REGRETS)

1. **Key #1:** the gauntlet room east of the entry — seal yourself in, clear it out.
2. **Key #2:** the crypt west of the entry. Dark room — lantern up.
3. Key #1 opens the entry's north door — the **hub**.
4. **Key #3:** west of the hub past the sokoban. **Key #4:** the war room east of the pre-boss hall.
5. **BIG KEY:** the **lava gallery** (north-west) — eye switches across the lava open the path. Don't hug the lava walls; they burn.
6. Hub north → sanctum → **throne room**.

PRO TIP

Every key in the Citadel can be reached **WITHOUT** spending one — so you can never lock yourself out. The architect was evil, not cruel.

SECRET

The torch room east of the hub hides a **bombable alcove** — inside is the Citadel's own **HEART CONTAINER**. Do not skip this.

MORGRATH: THE LAST BATTLE

PHASE ONE — THE SORCERER

PHASE 1 — the wizard duel. He blinks, he barrages, he gloats.

Morgrath fights like his wizards, only meaner: **teleport, barrage, rest, repeat**. The rhythm is your friend. When he materializes, he needs a moment to wind up — that moment belongs to your blade. Two clean hits per window, then break away before the bolts fan out. Keep your hearts above half: phase one is a warm-up, and you want to enter what's next strong.

PHASE TWO — THE DEMON

HE WASN'T KIDDING ABOUT THE FORBIDDEN MAGIC. 26 HP of doom.

Drop the sorcerer and the throne room **shakes...** and what stands up is no longer a man. Demon Morgrath fills the room: **fireball fans**, **charging rushes** that crack the floor, and **bat swarms** when his health runs low. The plan:

- **Charges:** he crashes like Bramblehorn — sidestep and slash the recovery. Old tricks beat new demons.
- **Fireball fans:** the gaps are generous. Walk — don't panic-run — through them. Boots help.
- **Bats:** kill them THE SECOND they appear, or they'll nickel-and-dime your potion stash away.
- **Potions:** drink at 2 hearts. A held potion heals zero damage.

When the last hit lands, the darkness peels away, the Crown reforges, and Eldoria gets its sky back. **You did that.** Roll credits, hero — and yes, your save keeps going afterward, with every secret still out there to find.

TALES OF ELDORIA

They say the throne room's carpet runs the exact path the first heroes walked to place the Crown. Morgrath kept it. Even monsters miss being part of a better story.

THE GOLDEN ACORN REGISTRY

Twelve Golden Acorns hide across Eldoria. **NUTWICK**

PAYS: 4 acorns → **100 gems**. 8 acorns → **HEART CONTAINER**. All 12 → the **OAK CHARM** (all damage halved, forever). Here is every single one. You're welcome.

#	WHERE	HOW
1	North meadow bluffs (NW of the village)	Tucked in a bush pocket — cut your way in
2	South fields, far SE corner	Behind the farm rows
3	Forest, NW alcove	Bush-sealed nook by the gem chest
4	Nutwick's own grove	Right under his nose. He counts them. Do it anyway
5	Forest gem cave	BOMB the boulder in the SE forest, acorn inside the cave
6	Lake NW shore	Bush cluster near the reeds
7	Lake bridge island	Cross the bridge to the island's heart
8	Frostpeaks, NW ledge	Bush-sealed snowy shelf
9	Frostpeaks, NE nook	Near the 20-gem chest peak
10	Deep swamp island (SW corner of the world)	Wade the shallows south

11	NE desert	Behind the cactus line
12	SW dunes	Pocket in the rocks near the desert road

PRO TIP

The HUD doesn't track acorns — the PAUSE screen does (ENTER). Found one? It's saved forever the moment you grab it.

THE HEART CONTAINER TRAIL

Beyond the three boss hearts, FOUR more await:

- **Mountain cave:** bomb the cracked boulder in the far NW corner of the Frostpeaks.
- **Desert cave:** bomb the boulder in the desert's far SE corner.
- **Lake cave:** the ONLY cut-secret in Eldoria — a bush on the lake's south shore hides a staircase. Slash everything green.
- **Citadel alcove:** bombable wall in the torch room (page 13).
- **Nutwick** hands over one more at 8 acorns!

Collect everything and your life bar hits **11 hearts**. Morgrath will weep.

THE SUNKEN SHRINE & THE HERO'S BLADE

Witch Morla's riddle is real. South-west through the swamp — wade the shallows, mind the deep water — ancient stones rise from the mire. The staircase between them sinks into the **SUNKEN SHRINE**, the one dungeon no quest requires... and the one every hero should finish.

1. **Antechamber:** block on the plate AND both torches lit (lantern!) opens the north door.
2. **Drowned cellar** (east, optional): clear the fight for 50 gems.

3. **Hall of echoing lights:** two block-plates, one torch. The east door grinds open.
4. **The arena: BOG LURKER.** Swing where it surfaces. Its treasure: the **HERO'S BLADE** — **double damage on every swing, forever.**

MORE CLASSIFIED INTEL

- **Fairy ponds** (lake NE + desert oasis): walk into the water, leave with full hearts. Free. Reusable. The pros plan routes around them.
- **Gem caves:** bomb-boulders in the central meadows and SE forest each hide a 50-gem chest (the forest one has acorn #5!).
- **Wastes caches:** 50 gems in the NW ruin pocket; FIVE bombs in the NE — restock before the Citadel without walking home.
- **Chest patrol:** 20-gem chests hide in the meadow bluffs, the south hollow, the forest nook, the lake cove, the peaks and the swamp; 50-gem chests in the SW forest and east desert; an arrow cache sits in the north desert. Our world map shows the regions — happy hunting!
- **Dungeon 1 revisit:** that cracked wall in Vinewood's SE room? 50 gems say you came back with bombs.

THE COMPLETIONIST'S CHECKLIST

✓	DEED
☐	Emerald Shard (Vinewood Temple)
☐	Ruby Shard (Sandstone Ruins)
☐	Sapphire Shard (Glacier Hollow)
☐	Hunting Bow • Bomb Bag • Lantern • Power Boots
☐	HERO'S BLADE from the Sunken Shrine
☐	All 12 Golden Acorns
☐	Oak Charm (Nutwick, 12 acorns)
☐	All 7 bonus Heart Containers (11 hearts total)
☐	Every cracked wall bombed (D1 revisit too!)
☐	Both fairy ponds discovered
☐	Talked to every single villager after the ending
☐	MORGRATH DEFEATED — CROWN REFORGED

98% — "AN INSTANT CLASSIC" — ELDORIA WEEKLY

"I have reviewed kingdoms, festivals, and one unusually ambitious turnip. This quest outranks them all." — *Pip, age 7, Willow Village Gazette*

"The boulder. THE BOULDER. Twenty years!" — *Hermit Aldous, five stars*

"Chit-chit. CHIT-CHIT-CHIT!" — *His Royal Fluffiness King Nutwick, translated from the original Squirrel*

UNTIL NEXT TIME

Some say that on quiet nights, the reformed Crown hums an old song — and that far beyond the eastern lake, something hums back. But that, brave hero, is a legend for another day...
